July 19, 2010

Dear Parent/Guardian:

The School District of Brown Deer will be using *Skyward Family Access* for the 2010-11 school year. Family Access is a secure internet-based website that will allow you to view important information about your child, such as grades, attendance, discipline, and health records. Some information will be available immediately, and more will be added throughout the school year. Updated information and instructions will be posted on the website: www.browndeerschools.com on the link in the left column labeled "Family Access". This page will be continually updated as new options are added. Parents are encouraged to check this page often for updates, alerts, and tips regarding the use of Family Access.

Login and password information is mailed to all parents. Each household will receive one login ID. Parents should contact the district office if to retrieve forgotten logins or passwords and the information will be mailed to the address on file, or it may be picked up, with proper ID (it will not be provided on the phone).

We are very excited about Skyward Family Access and how it will help you stay informed about your child's progress. It is our hope that we can use this tool to create a stronger relationship between parents and our school community. If you don't have internet access at home or work, you may login at the District office, at the Parent Access computer outside the school office, or on any other computer (i.e., family, friend, public library, etc.)

If you have any questions or concerns, please send an email to familyaccess@browndeerschools.com or call 371-6750.

Sincerely,

Dr. Deb Kerr
District Administrator
